

Name Nasreen Nazeer
Father Name Nazeer Ahmed
Education M.A, B.ED

I belong to Basti Kamalia which is situated in Teh.KHAN PUR U/C Jaja Abasia Dist. RYK.

Due to the illiteracy rate the standard of education is very low in our area. There is also landlord system in our area.

The women who speak for her right called symbol of sham. I also have to face these circumstances. I got private education because I m fond of knowledge.

The desire to get education still remain in my heart but because I have no permission to get higher education I can't expose my desire to my family members because in this way they will criticize on it.

That's why I remain silence but I worried about my education during this period God bless me a good leader in shape of Madam **Farzana Hameed.**

She did meeting in **2008** for the elimination of violence on females and it's my good luck I was there at that time.

After the meeting I talk her sometime and aware her about my thinking and desire for knowledge. She gave me surety for cooperation.

Then she meet my parents and request them that they give me permission for job.

At last my parents agree and after the struggle of one month they gave me permission for job. There is a private school in my area I bought it by support **of Madam Farzana.**

Then from here I started my practical life.

On that school I had start a sewing centre for the help of poor females by **cooperation of Al-Ghaffar Welfare And Education Society.**

From where a lot of females earn after getting sewing skills.

I also have made the list of those females who have fond of learning but don't send to college for higher education.

Now I m seeing every one listen to me, give me great respect .All girls and women imagine me as a role model.

When I see any person in pain I went to help him/her with core of my heart and do my work with honesty.

Now all females consult me either it is domestic matter or any social problem.

I also playing the role of change maker in my area.

I think its all credit goes to **"WE CAN"** campaign only because of it I m here and more confident than before.
